

JOHNS HOPKINS

Engineering Innovation

ei.jhu.edu

**Apply online starting
December 15 for the
following summer**

Admission Requirements

- Rising high school junior or senior
- As and Bs in high school math and science courses
- Completion of algebra II, a lab science course and a course in trigonometric functions

For more information, please visit our website at ei.jhu.edu, or contact ei@jhu.edu or 410-516-6224.

Join other high school students in a challenging summer program where you'll learn how to apply math and science concepts to practical engineering exercises.

What is Engineering Innovation?

- Hands-on labs, team projects and exciting competitions
- Course topics in chemical, civil, electrical, materials and mechanical engineering
- A Johns Hopkins University freshman engineering course
- Opportunity to earn college credit
- Limited number of residential locations available
- Commuting locations available across the country

Visit us at ei.jhu.edu to apply and find more information about deadlines, tuition and fees. Need-based financial assistance is available for commuter students.
