This **FREE, adult-only** program will focus on the signs, symptoms, and current trends relative to the use of tobacco/vaping, alcohol, marijuana, inhalants, heroin, and synthetic drugs by teenagers.

To assist families in identifying how teens may hide substance use, a **mock bedroom** will be set up with drug and alcohol paraphernalia.

PLEASE NOTE:

The same information will be presented at each of the sessions.

This program was made possible thanks to the support of our sponsor:
