

# Vocabulary Scavenger Hunt

## Adult Directions:

- Choose vocabulary words you think will be new to your child from a book you plan to read with your child (If you don't have one, take a trip to the library!)
- Write the words on index cards or scrap paper
- Act out the vocabulary word, or give synonyms to help your child understand the word
- Next, have your child try to come up with a definition in their own words, and write it on the back of the card/paper
- Finally, read the book with your child
- Check with your child while you are reading together to see if their previous definitions match the meaning in the context of the book
