

Brandon is an outer space expert. If you ever want information about (sister, and, **the**) sun, planets, sky, or stars, Brandon (has, completed, **is**) the boy to ask. He knows (it, **more**, every) about the solar system than anyone (**I**, newest, he) have ever met. He's a walking, (painting, **talking**, sky), breathing outer space computer.

Brandon reads (the, right, **every**) book and article about space that (sister, **he**, newest) can find. He says that he (wants, **has**, out) read eighty books, and he has (very, **just**, now) gotten started! He enjoys reading both (**fiction**, people, any) and non-fiction stories. Brandon's sister just (even, makes, **bought**) him the newest magazine on rocket (**travel**, about, movie), and he is very excited to (dreams, when, **read**) it.

Brandon is a great space (planet, excited, **artist**). He recently completed a picture of (**the**, he's, and) night sky using blue, black, silver, (sleeping, **gold**, newest), and white glitter. He makes models (**of**, from, find) the planets out of clay. Right (someday, **now**, expert) he is painting a huge poster (setting, **depicting**, sounds) the Big Dipper and the Little (when, he, **Dipper**).

Brandon talks about outer space. He (plants, **creates**, stories) songs about outer space. He will (**watch**, great, know) any show or movie about outer (is, **space**, sky). I bet he even dreams about (blue, life, **outer**) space when he's sleeping!

Someday Brandon (truly, wants, **would**) like to be an astronaut. He (**wants**, believes, red) to blast off in a space (**shuttle**, of, planet) that lands on the moon or (see, for, **on**) Mars. He would like to walk (to, **in**, is) space. He imagines floating and being (space, **weightless**, he) in the air. He thinks somewhere (on, a, **in**) the solar system aliens truly exist. (**He**, People, Invite) wants to explore Mars and hunt (**for**, design, if) water. He wants to see what (space, him, **kind**) of life might live there. He (would, **doesn't**, over) know if he would find plants (new, **or**, to) animals or learn why it is (colony, completed, **called**) a red planet.

If Brandon could (**live**, people, bet) out his greatest fantasy, he would (**help**, explore, wonderful) design, build, and live in a (Brandon, silver, **giant**) space colony. He'd invite people from (outer, that, **different**) countries all over the world to (poster, **join**, bought) him in settling a new frontier. (**Throughout**, Why, For) the galaxy, there would be peace, (shuttle, **harmony**, about), and people jetting around in flying (reading, people, **saucers**).

Brandon believes that outer space is (water, **full**, kind) of wonderful sights, sounds, and life.

Brandon is an outer space expert. If you ever want information about **(sister, and, the)** sun, planets, sky, or stars, Brandon **(has, completed, is)** the boy to ask.
